### ***Commitment to Product Quality and Authenticity***

At Genuine Haarlem Oil (GHO), we are fully committed to ensuring that every batch of our product meets the highest standards of quality, purity, and authenticity. Our traditional formula, dating back to 1696, is carefully produced under controlled conditions to preserve its integrity and natural composition. Each batch is analyzed by independent accredited laboratories to confirm: - Compliance with purity and composition requirements - Accurate sulfur concentration - Absence of additives, preservatives, or contaminants All testing reports are retained for regulatory verification and can be provided upon official request.

### ***Manufacturing Standards and GMP Compliance***

GHO products are manufactured in facilities that follow Good Manufacturing Practices (GMP). Our procedures include strict control of temperature, hygiene, and traceability at every stage of production. Batch traceability is maintained from raw material to final packaging.

### ***FDA Registration and Regulatory Compliance***

Genuine Haarlem Oil is duly registered with the U.S. Food and Drug Administration (FDA) for import and distribution as a dietary supplement. Our labeling and communications comply with U.S. FDA and EU regulatory frameworks applicable to nutritional supplements. We strictly avoid any claim suggesting that the product diagnoses, treats, cures, or prevents any disease, in accordance with FDA policy on dietary supplements.

### ***Transparency and Customer Trust***

Transparency is a core value of GHO. Customers and regulatory authorities may request Certificates of Analysis (CoA), GMP documentation, or product specifications for import verification.

*This product is not intended to diagnose, treat, cure, or prevent any disease.*

*All information provided is in accordance with FDA and EU regulations on dietary supplements.*

**Signed,**

**Thierry Remy**
